GENERAL CONTRACTING

We build ideas driven by the future.

# Corporate Overview

Techno Wave General Contracting is a leading engineering and construction company based in Abu Dhabi, U.A.E, committed to delivering high-quality, reliable and sustainable solutions across the Oil & Gas, Water and Infrastructure sectors. With years of proven industry experience, we have earned a strong reputation for technical excellence, timely execution and customer satisfaction. We combine innovative engineering practices with advanced technologies to meet the evolving needs of our clients and ensure the successful completion of complex projects under challenging conditions.

At Techno Wave, we take pride in our dedicated team of professionals who uphold the highest standards of safety, quality and environmental responsibility in every project we undertake.

Our commitment to sustainability and continuous improvement drives us to contribute meaningfully to the U.A.E's development goals while building enduring value for our clients and stakeholders.

# Our Vision

To be the most reliable and innovative contracting partner in the Oil & Gas, Water and Infrastructure sectors – delivering projects that ensure quality, sustainability and client satisfaction.

# Our Mission

- To deliver safe, sustainable and high-quality engineering solutions that meet client expectations.
- To provide comprehensive services in pipelines, water systems, pumping stations and infrastructure works.
- To uphold the highest standards of safety, integrity and professionalism in every project.
- To empower our workforce through continuous training and technical advancement.
- To promote innovation and environmental responsibility in all operations.
- To build lasting partnerships with clients, stakeholders and the community through trust and performance.

# Core Values

- Proven expertise in every project we undertake.
- Commitment to quality, healthy and safe environment.
- On-time delivery through efficient planning and execution.
- Comprehensive and integrated contracting solutions.
- Client-centered approach built on trust and collaboration.
- Capability, innovation and continuous improvement in all operations.

# Services & Capabilities

## Pipeline Works

We deliver complete pipeline solutions from installation to commissioning, ensuring reliability, durability and safety across all network systems.

- Installation of HDPE, ductile iron & steel pipes
- Water and wastewater pipeline installation
- District cooling and fire-fighting networks
- Pressure testing, flushing & commissioning
- Construction of manholes, chambers & pumping connections
- Maintenance & repair works
- Oil & gas pipeline systems

## Mechanical Works

Our mechanical contracting services focus on precision, efficiency and long-term performance. We undertake complex mechanical installations, system upgrades & maintenance works across various sectors.

- Pumping stations & mechanical plant installations
- Mechanical maintenance, retrofitting & upgrades
- Steel fabrication & customized supports
- HVAC installations & system integration
- Equipment erection & alignment
- Valve chambers & pipe fittings

## Civil Construction Works

We offer end-to-end civil construction services that meet the highest standards of quality, safety & compliance. Our capabilities span industrial, commercial & infrastructure projects.

- Structural & architectural finishing works
- Industrial & commercial building works
- Concrete structures & foundations
- Utility infrastructure development (drainage, water supply, electrical ducting)
- Site development & earthworks
- Roadworks & paving
