- ✔ **Client-Centricity** : Fostering collaboration and trust to deliver fully integrated contracting solutions.

CORE SERVICES & CAPABILITIES:

MEP & ELECTROMECHANICAL

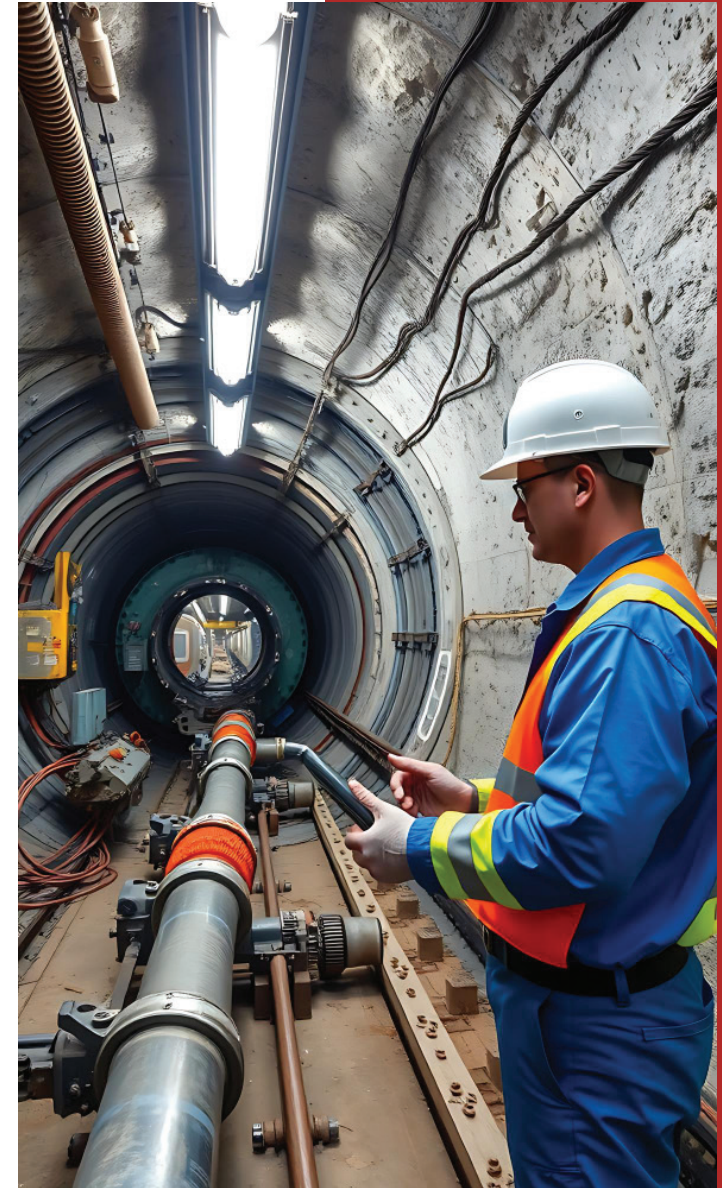

We deliver fully coordinated electromechanical solutions that form the functional backbone of commercial, residential, and industrial facilities.

- ✔ Complete electrical works, including LV Panels, Generators, and Substations
- ✔ Precision mechanical installations and network piping
- ✔ End-to-end plumbing, drainage systems
- ✔ Integration of instrumentation and control systems

CIVIL, STRUCTURAL & PIPELINE WORKS

We offer robust civil and pipeline construction services adhering to the strictest standards of safety and compliance.

- ✔ Delivery of concrete foundations and structural works for commercial and industrial projects.
- ✔ Precision equipment erection, alignment, and internal network piping for various facilities.
- ✔ Heavy pipeline installations including complex sea pipelines and large-scale external networks utilizing HDPE, steel, and ductile iron pipes for district cooling and primary water networks.
- ✔ Comprehensive pressure testing, flushing, and system handover.

SEWERAGE & WATER TREATMENT

We manage the entire lifecycle of wastewater infrastructure, serving municipal, industrial, and development clients across the region.

- ✔ Installation of gravity, pressure, and Vacuum Sewerage Systems
- ✔ Construction and fit-out of sewage pumping and lifting stations
- ✔ Setup and maintenance of Sewerage Treatment Plants (STP)
- ✔ Network rehabilitation, pipe relining.

HVAC WORKS

We deliver highly reliable, energy-efficient climate control systems spanning from design coordination to long-term maintenance.

- ✔ Supply and installation of central AC, VRF/VRV systems, and chiller plants.
- ✔ Ductwork fabrication, thermal insulation, and ventilation/exhaust systems.
- ✔ Comprehensive HVAC testing, air balancing, commissioning, and preventive service contracts.

INFRASTRUCTURE & UTILITY WORKS

We provide the essential groundwork and utility systems required to support large scale developments and municipal projects.

- ✔ Setup of Reverse Osmosis (RO) plants
- ✔ Design and installation of irrigation networks
- ✔ Waterproofing services

SWIMMING POOL & SPA FACILITIES

We construct premium aquatic and wellness facilities tailored for the UAE's high-end residential, commercial, and hospitality sectors.

- ✔ Full-package pool construction from concrete shells to architectural finishes
- ✔ Custom installation of saunas, steam rooms, Jacuzzis, and cold plunges
- ✔ Construction of infinity edges, fountains, and reflecting pools
- ✔ Ongoing aquatic facility operation and maintenance

LANDSCAPING & HARDSCAPING

We transform outdoor environments, blending aesthetic appeal with practical functionality.

- ✔ Soft landscaping, including comprehensive planting and turfing
- ✔ Hardscaping execution for paving, walkways, and retaining walls
- ✔ Integrated Environments

FACILITY MANAGEMENT & MAINTENANCE

Our commitment to our clients extends far beyond project handover, ensuring continuous, optimized performance of your assets

- ✔ Comprehensive Maintenance Solutions
- ✔ Periodic Preventive Programs
